Department of Zoology

B. Sc Zoology

After successful completion of B.Sc. Zoology students will be able to achieve following knowledge:-

Environmental Biology & Technology

CO1: The student knows his role in nature as protector, preserver and promoter of live which they achieve by learning, observing and understanding of life.

CO2: To working in a nature to save environment with help to development of leaderships skill to promote better of environment.

Cell Biology

CO1: The Learner will understand importance of cell as a structural and functional unit of life.

CO2: The learner will understand the basic biochemistry, scope and branches of parasitology different biological techniques.

Physiology of Mammals

CO1: The learner knows the mammalion.

Molecular Biology

CO1: Molecular biology gives depth knowledge of biology medicinal process through the investigation of underline molecular mechanism
